Education

National Institute of Technology, Patna **Aug, 2019 – June, 2023**
Bachelor of Technology, ECE *CGPA: 8.63/10*

A.N.D Public School, Chapra **June, 2016 – May, 2018**
Intermediate *Percentage: 81.8%*

A.N.D Public School, Chapra **May, 2015 – May, 2016**
Matriculation *CGPA: 9.6/10*

Experience

Amazon **Jan, 2023 – June, 2023**
Software Developer Engineer Intern *Hyderabad, Telangana*

- Upgraded Chime SDK and multiple dependencies (Typescript, WebPack, loaders, plugins, ReactToolKitBuild, NodeJS etc) for improved performance and functionality.
- Ensured Seller and Associate sites compatibility with FireFox browser, catering to the **3%** of sellers currently using this browser.
- Developed an Audit Tool page using ReactJS and Katal framework to display the list of video meetings between sellers and associates.
- Implemented efficient Searching based on "SellerId" and Filtering options (language, date, country, timezone) for easy data retrieval.
- Significantly enhanced user experiences, productivity, accountability, and efficiency when accessing meeting records.

Projects

My Portfolio | *HTML, CSS, JavaScript, API, Firebase* **GitHub | Project Link**

- A frontend project that has some information about me. It has many sections e.g. myself, Education, skills, coursework, etc. Different types of animations occur on specific section reveals.
- Used FormSubmit API in the contact me section, by which visitors can send me emails. It sends form data to my email.
- Retrieved and utilized documents stored in Firebase for seamless data access in application development.

Weather Chrome Extension | *HTML, CSS, JavaScript, Open Weather Map API* **GitHub | Project Link**

- Developed a weather Chrome extension that provides real-time weather data to users.
- Utilized the Open Weather Map API to fetch accurate and up-to-date weather information.
- Displayed a comprehensive set of weather parameters, including temperature, humidity, wind speed, etc.

Quotes Adviser | *ReactJS, CSS, Advice Slip JSON API* **GitHub | Project Link**

- A React JS responsive advice webpage, where you will get different quotes, whenever you click on the button, a new quote will be shown on the screen, a background video that plays continuously.
- Used Advice Slip JSON API, from where webpage gets the quotes.

Technical Skills

Languages: C, C++, Python, Core Java,
Web: HTML, CSS, JavaScript, TailWind, ReactJS, API, Git
Cloud/Database: AWS, SQL
CourseWorks: Data Structures & Algorithms, OOPs, Operating System, DBMS, Web Devlopment

Coding Profiles

- GeeksForGeeks
- LeetCode
- CodeChef
- HackerRank

Achievements

- Secured overall **Rank 12** in the True Geek Tournament 2021 - GeeksForGeeks
- Secured **AIR 1105** in CodeKaze Contest 2022 - Coding Ninjas
- Secured overall **Rank 81** in Codechef-October Challenge 2021 Division 3 - CodeChef
- Achieved **94%** in "The Joy of Computing using Python", Ranking in the top **2%** among **7438 students** - NPTEL
- Secured overall **Rank 40** in The Easiest Ever Coding Challenge - GeeksForGeeks
- Achieved a percentile of **98.01** with a rank of **21654** - JEE Mains, 2019
